

L7000S is a smart lock with embedded fingerprint recognition technology. It is the same with L7000, except for the lock body. For L7000S, it uses German standard mortise with one latch and one deadbolt. You can turn handle upward to lock the deadbolt for more security.

- With the new generation fingerprint recognition algorithm
- German standard mortise with one latch and one deadbolt - Turn handle upward to lock the deadbolt
- Handle, lock body and strike is reversible design for all door open direction
- Idle handle design to prevent from forcible entry
- OLED display screen with visual menu

L7000S

SPECIFICATION

Material	Zinc Alloy
Fingerprint Capacity	500
Password Capacity	100
Log Capacity	30000
Communication	USB flash disk
Operating Temperature	0° - 45°
Power Supply	4×AA Alkaline Battery
Backup Unlock	9V Battery & Mechanical Key
Door Thickness	35-55 mm (standard)
	55-75 mm (optional)
