

Tripod turnstiles are compact and cost-effective entrance solutions designed for smooth and silent operation, less wear and tear and reduced power consumption, suitable for areas where there is a large flow of people.

The TS1000 series, our stainless steel compact version, offers high operating reliability in a small casework, ideal for sites where space is an issue.

On receiving a signal from the access control system, or push button, it allows the passage of one person at a time.

Passage in both directions is electronically controlled.

Default mode is to lock the mechanism until a valid authorization signal is received.

If you want to set one side free, you can have it by adjusting the mechanism.

In case of emergency, the horizontal arm will drop to allow free passage.

TS1000

SPECIFICATION

Power Supply	AC 220V/110V, 50/60Hz
Operating Temperature	-28°C- 60°C
Operating Humidity	5% -85%
Working Environment	Indoor/Outdoor(shelter)
Rated Power	60W
Flow Rate	25- 48 passage/minute
Ingress Protection	IP54
Casework Material	SUS304
Pictogram Indication	Yes
Control System	Input controlled by dry contact
Emergency Button Input	Yes
Dimension	52*98*28(CM) + arm length 50CM
Package Dimension	60*108*38(CM)

Net Weight	34KG
Gross Weight with Package	40KG
Optional Function	Alternative Material or shape, third-party access control integration, ticket system integration, passage counter
